- * Solvent Stripper 5 Gal.

Conspec by Dayton Superior

Solvent Based Sealers

*** Spectrum** 1 & 5 Gal.

Spectrum is a single component transparent liquid designed as a cure and seal developed specifically for exterior surfaces, including exposed aggregate and other concrete surfaces.

Spectrum treated surfaces take on and retain a "wet" look which emphasizes natural aggregate colors.

*** Crystal Seal** 1 & 5 Gal.

Crystal Seal is a clear sealer that will not yellow under exposure to sunlight. Crystal Seal forms a tenacious bond to the concrete surface and provides a long lasting high gloss film.

Crystal Seal will seal, dustproof and enhance the beauty of new and old concrete. It is a film forming sealer for concrete, stamped concrete, exposed aggregate concrete or pavers. Crystal Seal allows the substrate to breathe while protecting it from rain and airborne contaminants.

- * High Gloss finish
- * Resists mildew and surface staining
- * Inhibits efflorescence
